
EXPLANATION OF THE COMPUTER LIST

The identical marks in other classes, cancelled and non-renewed marks are printed at the end of this list.

Due to the subjectivity of all documentary research, we recommend that clients review the computer list before giving clearance to a mark and

- if relevant questions have been missed, please immediately refer to us to have an additional search processed (this could be particularly relevant to marks having a meaning);
- if any marks, not selected by the analyst are found to be of interest, please request extra detailed information of such marks.

ANALYST'S MARKS
